

# Preparing for the land return of MCAS Futenma...

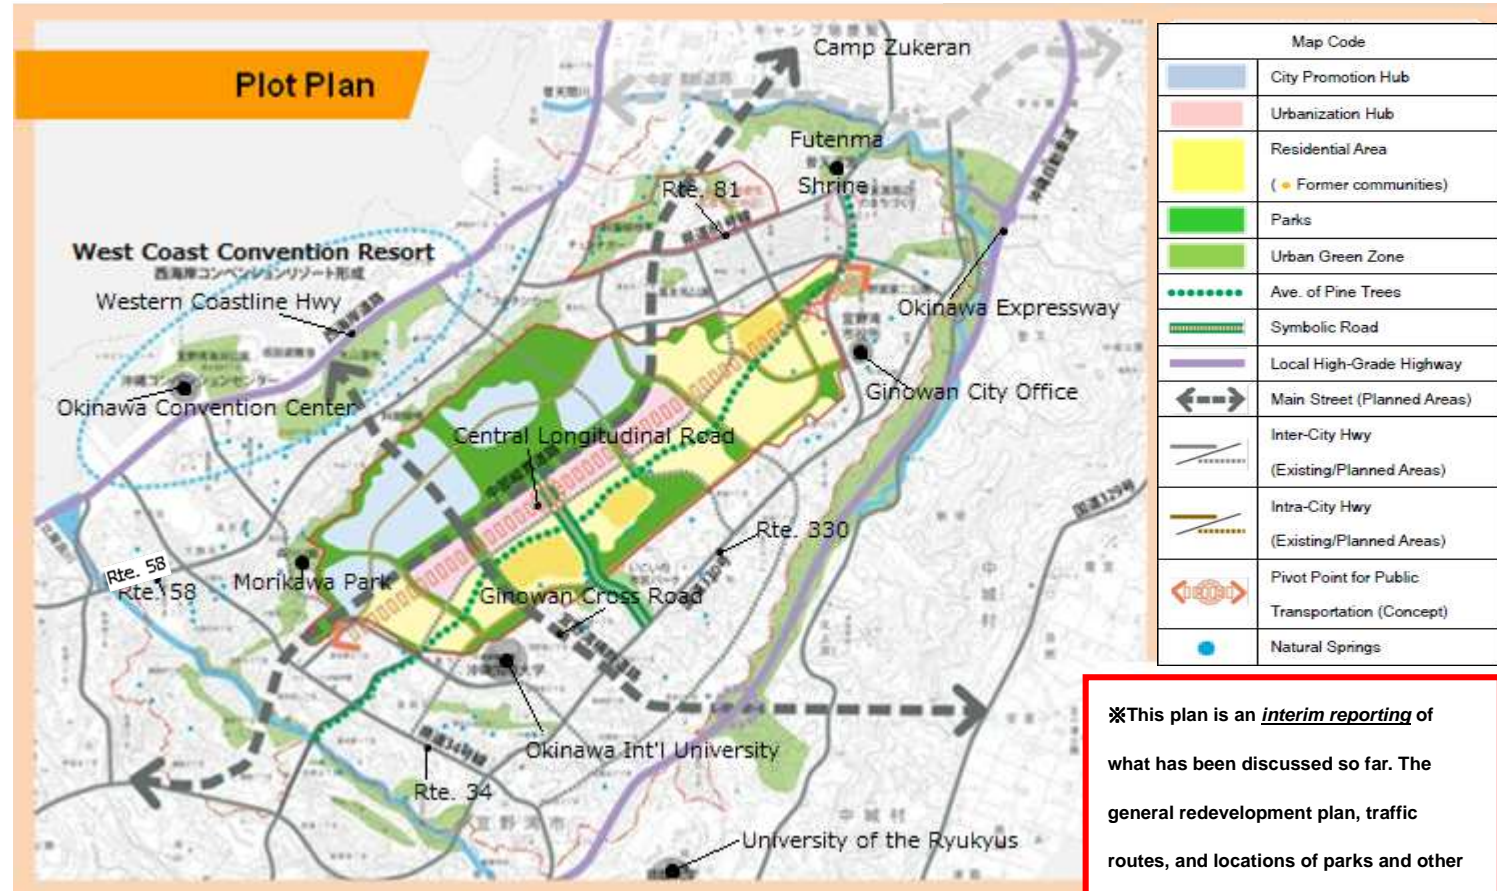

↑ A new social hub for local residents

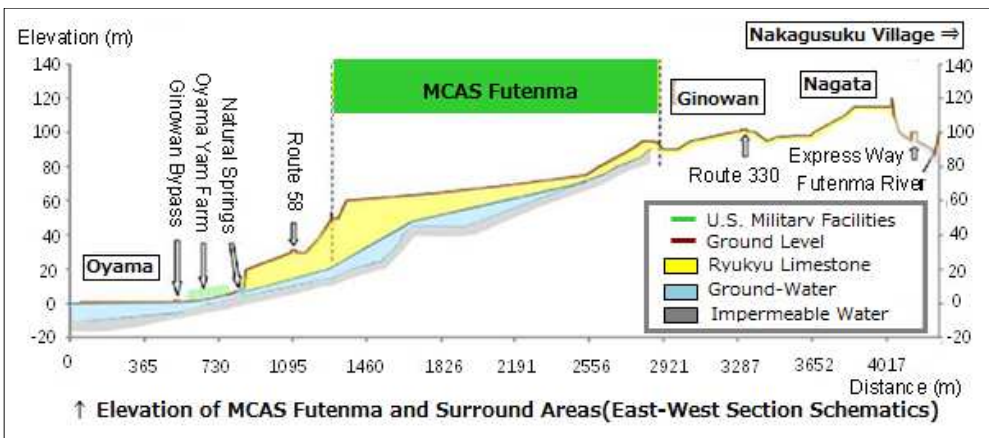

↑ A row of Pine Trees to replicate the historical "Nan-machi"

↑ Okinawa Promotion center incorporating the rich greenery and ocean-view

※This plan is an interim reporting of what has been discussed so far. The general redevelopment plan, traffic routes, and locations of parks and other facilities are subject to change ※

Ginowan City and the Prefecture of Okinawa have jointly created the "MCAS Futenma Site Redevelopment Basic Plan" and the "MCAS Futenma Redevelopment Plan of Action" to prepare for the land return of the current MCAS Futenma property. Surveys, Cultural Asset Assessments, environmental surveys, and discussions with other entities are being carried out based on strategies and procedures established in these two documents.

In fiscal year 2012, Ginowan and the Prefecture devised an "Interim Progress Report" summarizing progress to date, and mapped out a Regional Plan. Hereafter, we intend to finalize a redevelopment plan which integrates the information on the interim report as well as the suggestions and wishes of the land owners.
